

GameVerse Arena

Online Gaming Website Development

Freelancer Project Requirements Document (PRD)

Project Overview

GameVerse Arena is an online gaming and esports platform designed to provide players with a centralized destination for discovering games, tracking rankings, and engaging with the gaming community.

The platform offers user registration, user login functionality, game catalog browsing, leaderboard tracking, player profile management, and contact features. The objective of this project is to develop a modern, responsive, and user friendly gaming website that delivers an engaging experience across desktop, tablet, and mobile devices.

The final deliverables should provide a complete website implementation together with all required assets and documentation.
